

Care Labelling Symbols

WASHING (Wash tub) 													
	normal process	mild process	normal process	mild process	normal process	mild process	very mild process	normal process	mild process	very mild process	hand wash	do not wash	
<p>The numbers in the washing tub specify the <i>maximum temperature</i> in °C which must not be exceeded. The <i>bar</i> underneath the wash tub characterizes a mild process with reduced <i>mechanical</i> action especially for easy care articles. The <i>double bar</i> indicates a very mild process especially for woollen articles.</p>													
BLEACHING (Triangle) 													
	any oxidizing bleaching agent allowed						only oxygen/non-chlorine bleach allowed						do not bleach
DRYING (square) 													
	tumble drying possible normal temperature						tumble drying possible lower temperature						do not tumble dry
	<p>The number of <i>dots</i> indicates the severity as regards to temperature of the tumble drying process.</p>												
IRONING (Hand iron) 													
	Iron at maximum temperature of 200° C				Iron at maximum temperature of 150° C				Iron at maximum sole plate temperature of 110° C				do not iron
	<p>The number of <i>dots</i> indicates the severity as regards to temperature of the hand iron.</p>												
PROFESSIONAL TEXTIL CARE (Circle) 													
	prof. dry cleaning normal process		prof. dry cleaning mild process		prof. dry cleaning normal process		prof. dry cleaning mild process		do not dry clean				
	<p>The <i>letters</i> within the circle specify the <i>solvents</i> that can be used. The <i>bar</i> under the circle indicates a mild professional dry cleaning process, the <i>double bar</i> a very mild process. These may concern mechanical action and / or drying temperature and / or water addition in the solvent.</p>												
													
	professional wet cleaning normal process			professional wet cleaning mild process			professional wet cleaning very mild process			do not wet clean			
<p>The <i>letters</i> within the circle specify the <i>wet cleaning process</i>. The <i>bar</i> under the circle indicates a mild professional dry cleaning process, the <i>double bar</i> a very mild process. These may concern mechanical action and / or drying temperature and / or water addition in the solvent.</p>
